

PANASHE C. CHINDURU

TELECOMMUNICATIONS ENGINEERING TECHNICIAN

Harare, Zimbabwe | Open to International Relocation | +263 777 395 576 | +263 719 176 668 | claytonpchinds1@gmail.com | [linkedin.com/in/clayton-chinduru](https://www.linkedin.com/in/clayton-chinduru)

PROFESSIONAL SUMMARY

Telecommunications Engineering Technician with hands-on, live-network experience spanning fibre-optic last-mile deployment through core transmission systems, plus enterprise, residential, and mobile ICT installations. Delivered FTTH/FTTB rollouts, SDH and OTN/DWDM provisioning, and MSAN-to-GPON migration within TelOne Zimbabwe's production network, supporting infrastructure serving 24,000+ subscribers. Completed 50+ Starlink installations and activations (residential, enterprise, and vehicle-mount, including buses), alongside point-to-point wireless radio links, CCTV/DVR/NVR surveillance systems, and structured Cat6 cabling at Makeit Tech. Resolved 50+ fault tickets weekly and maintained uptime for 10+ enterprise leased-circuit clients daily. Proficient across Huawei and Nokia NMS/EMS platforms, with practical grounding in fibre splicing and OTDR diagnostics. Seeking to apply field-proven technical execution to an international network operations or infrastructure deployment role.

CORE COMPETENCIES

- Fibre Optics & FTTH:** Fusion splicing, fibre termination, OTDR testing & fault diagnostics, cable routing, FTTH/FTTB full-cycle deployment
- Transmission & Core Network:** SDH (STM provisioning), OTN/DWDM (Tejas TJ1600), IMS subscriber provisioning, MSAN-to-GPON OLT migration
- Network Management & Assurance:** Huawei & Nokia NMS/EMS platforms, fault monitoring & ticket resolution, enterprise leased-circuit support
- IP & Enterprise Networking:** Router configuration, LAN/WAN & WiFi deployment, VoIP & LTE configuration, point-to-point (PtP) wireless radio links, Starlink Mini & Standard installation (residential, enterprise, and vehicle-mount), CCTV/DVR/NVR & WiFi camera installation, Cat6 structured cabling

PROFESSIONAL EXPERIENCE

IT Technician

Feb 2026 – Jun 2026

Makeit Tech

- Completed 50+ Starlink installations and activations for residential and enterprise clients, delivering reliable satellite connectivity to sites beyond conventional network coverage.
- Deployed Starlink Mini connectivity solutions on vehicles, including cars and buses, for mobile/in-transit connectivity.
- Installed and aligned point-to-point (PtP) wireless radio links for long-range site-to-site connectivity.
- Planned and executed network extensions, expanding LAN/WiFi coverage for residential and enterprise clients.
- Installed CCTV surveillance systems end-to-end, including DVR/NVR setup, configuration, and WiFi camera deployment.
- Performed structured cabling work, including Cat6 crimping and termination, for LAN infrastructure installs.

Telecommunications Technician — Casual (Project-Based)

Dec 2025 – Jan 2026

TelOne Zimbabwe, FTTH Projects

- Executed enterprise fibre deployments end-to-end, including splicing, OTDR testing, and circuit commissioning.
- Diagnosed and resolved enterprise fibre circuit faults, minimizing downtime for business-critical connections.

Telecommunications Technician — Industrial Attachment

Sept 2024 – Aug 2025

TelOne Zimbabwe

- Provisioned STM circuits within live SDH transmission networks and supported Tejas TJ1600 OTN/DWDM systems, safeguarding backbone network integrity.
- Operated Huawei and Nokia NMS/EMS platforms for real-time monitoring, configuration, and fault clearance across access and transport networks.

- Provisioned IMS subscriber services and configured VoIP/LTE routing, supporting reliable voice and data delivery for residential and enterprise customers.
- Contributed to MSAN-to-GPON OLT migration within the COMI environment, supporting network modernization initiatives.
- Resolved 50+ network fault tickets weekly across residential and enterprise segments, sustaining high customer satisfaction.
- Supported 10+ enterprise fibre leased-circuit clients daily, ensuring continuous uptime for business-critical services.

EDUCATION

Diploma in Telecommunications Engineering

TelOne Centre for Learning (affiliated with the National University of Science and Technology, NUST), Zimbabwe — Completed Nov 2025
